

To all,

Here is our update for the quarter. Please cascade to your club members.

First of all - all of us on the ZCCA Executive Committee would like to wish you and yours a safe and great Holiday Season. A number of us have our Z's already in storage and yes those of us are jealous of our members still driving their Z's.

On the ZCCA Front:

- The **ZCCA Web site** continues to become a state of the art site. Clayton has added a ZCCA Portal to get to anywhere on the site. This can be found at <http://www.zcca.org/forums/>. There are a few exception additions that need to be noted. The portal has a gallery where we will have photos from the conventions. There is also a gallery of Z's. You can add your Z, a detailed list of mods to your car as well as important information on the car and owner.
 - All Gold Medallion and Gold Cup cars also has a spot to showcase these award winners. If you have previously won one of these elusive awards please get your data to our webmaster to have your car added.
 - There is also a section for news that pertains to Nissan and the Z car as it happens.
- The web site also has an **Amber Alert feature** - which goes without saying a subject important to all.
- The **06 Convention** site is up and running - <http://www.2006zccaconvention.com/>. I have completed my initial visit to Dallas and this will be a convention not to miss. I will not spoil all the surprises so you have wait and see. Everything is top notch - Get Rest as there is a ton of activities and after sampling some of the food locations be prepared to come hungry. The committee in Dallas has done a fantastic job.
 - You will also notice a **significant change in the registration process. Club members in a ZCCA club in good standing receives added discounts at the conventions now.** This is a new benefit to being apart of a ZCCA member club.
- The 07 convention is also coming along great but no details will be announced until after Dallas.
- I am looking for clubs who are interested in hosting the **08 ZCCA Convention**. Please contact me as soon as possible as your club will need to make a presentation at the business meetings as to your proposal.
- On the ZCCA web site is a **calendar of events** - I would like to see this used so regional events can be planned to not conflict with other events planned. I have asked Jim Corbett to "monitor" this initially. For example if we tried to have a convention at the same time as the Tail of the Dragon event - people have to choose one or the other. We want to give all ZCCA and Regional events a chance to succeed. Please post all your clubs event schedules as soon as you have them
- NISMO will be sending me a fairly large amount of **NISMO catalogs** for use at ZCCA events throughout the year. Contact me if your club needs some.
- The number of clubs continues to grow. I see **the 06 calendar year as a year for growth**. Not only for the ZCCA but the local clubs. This will be a topic at our business meetings in Dallas. We should start initial conversations on ways to do this on the ZCCA web site forums. There is a special section that only club reps see and can post. And yes, if you are the club rep for your club you need to register with us to see that part of the forum.

December 8, 2005

Again have a safe and joyful Holiday Season - Please feel free to contact me at any time.

Regards

Paul Gasparola
